Director of Community Development Zachary Meadows introduced the Item and explained how the City of Galveston addresses zoning regulations for vacation rentals. The Commission discussed how such regulations would best be modified to meet Dickinson's specific needs, and gave staff the following direction to help guide the drafting of the regulations:

- Keep "Vacation Rental" as a use that requires a Specific Use Permit but make it more clear. As a way to keep the properties well-managed, explore ways to limit where owners of such rental properties can live.
- Consider changing the definition of "Vacation Rental" to also incorporate other types of short-term rentals.
- Revise the section concerning defining the "Local Responsible Party" to ensure that that person is geographically close by.
- Track the number of calls made to the location by police and consider fining the property owner for each violation starting with the fourth violation.
- Notify a larger number of nearby property owners, perhaps through the use of an increased radius for the notification zone.

Mr. Meadows agreed to revise the proposed regulations based upon the Commission's direction.

Commission Member Latimer left the meeting at 7:19 p.m.

Chairman Reeder said that the Planning and Zoning Commission is charged with planning and zoning for the whole city, and that the Commission needs to perform its function. The Commission then discussed the pros and cons of public engagement.

A non-refundable fee of \$525.00 must accompany a completed Specific Use Permit application. In some instances, staff, the Planning & Zoning Commission or City Council may require technical studies (engineering, noise, traffic, impact, etc.). The cost for these studies is borne by the applicant. The breakdown of the \$525.00 is as follows:

- Important physical features of the property (roads, topography, etc.)
- Need for re-zoning the location

History of Boat repair, building and sales at 5205 E FM 517

In 1997 the American Offshore boat Manufacturing Company was opened and operated in the entire building and adjacent yard.

Arthur DiNicolantonio bought the business in December of 1998 and leased the property from Ed Ferro the original owner of the boat company and property. The manufacturing facility had approximately 14 employees and manufactured 25 boats per year boats in that location until 2008.

In 2008 due to a law suit between A R DiNicolantonio and Edward Ferro. The boat building business was downsized at 5205 e FM 517 Dickinson and relocated by Ferro to unit H and G. A number of the molds belonging to A R Dinicolantonio

were relocated to San Leon Tx and Hemet California. Ferro continued to build boats in Unit H until 2011 at which time the Galveston County Court awarded the property to A R DiNicolantonio. Several of the boat Molds belonging to A R DiNicolantonio remained in the yard at 5205 until today. DiNicolantonio was not aware that the GC zoning imposed on the property in 2002 prohibited the manufacturing of boats on that property and built several boats after 2011 in various units of that building until he became aware that a SUP would be required to even operate a boat service establishment.

In Jan of 2016 DiNicolantonio applied for a SUP to open up a boat service shop in unit E. But was denied by the City Council for various reasons and has been denied a SUP numerous times since that time. Also attached are boat manufacturing licenses from 2003 and 2020 for a facility at 5205 E fm 517 Dickinson.

Also Attached is an ad for a boat extensively modified on the 5205 property in 2013 and 2014

This beautiful 41 ft American Offshore Catamaran started off life in 2012 as a bare hull manufactured by Liquid Glass. We obtained the hull from a bankruptcy sale and installed Livorsi Gauges, Northstar GPS, Imco stand off boxes, our own reliable engines with big tube CMI Stainless Headers, trim tabs. We modified the hull to drastically improve its handling. American offshore catamarans are well known for their safe and outstanding handling characteristics.

After review of the submission, I have no problems with the issuance of the SUP as long as the applicant understands that ALL spraying- whether painting or fiberglass work- MUST be done within the existing paint booth.

Subject: Bed and Breakfast Permitting

Ray:

From the Texas Food Establishment Rules(TFER) 228..(11) –“Bed and Breakfast Limited--An establishment with seven or fewer rooms for rent, serves breakfast to over-night guests, and is not a retail food establishment.” TFER goes on to state that a bed and breakfast limited is NOT a food establishment.

So, by definition a two bedroom Bed and Breakfast facility would not be considered a food establishment under the regulations we enforce unless the facility also invited people off the street to partake of their food without being a guest. We will not require a permit of the two bedroom bed and breakfast that you spoke to me about.
